

Un tweet sur ce thème ... venant du [musée national des mathématiques](#) à New York.

En date du 16/12/2020 bien sûr !

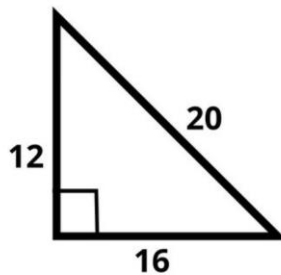

National Museum of Mathematics

@MoMath1

Happy [#PythagoreanTheoremDay](#) from [#MoMath](#)! This [#mathholiday](#) is celebrated when the sum of the squares of the first two digits in the date equals the square of the last digit in the date -- $12^2 + 16^2 = 20^2$. The next Pythagorean Theorem Day will be celebrated on 7/24/25!

Pythagorean
Theorem Day

$$12^2 + 16^2 = 20^2$$
