

Question loop Rules :

- Game with 16 cards shared among the players .
 - Players need a draft paper and a pen, maybe a calculator
 - Each card has 2 parts : question/ answer.
There is supposed to be only one answer per question
 - The one who has Start reads the question below. The player who has the corresponding answer gives it ...and reads his question... etc until somebody gives the last answer on the card finishing with End.
 - Cards must lay ordered on the table, as soon as they are used.
 - **A game lasts 25 minutes**, even though some cards may stay in hand.
 - The team that has the highest number of cards on the table wins.
-
- One player may have in his hand the answer to his own question.
 - If one player gives a wrong answer, the loop won't be closed and cards may be unused !
 - Question 1 looks difficult, but it's not !
